Street and Market Street.

Section 2. Emergency Legislation. In approving this ordinance by a three-fourths vote, this Board of Supervisors does hereby declare that an actual emergency exists and that the immediate preservation of the peace and safety of the people of the City and County of San Francisco necessitates that it take effect upon the signature of the Mayor. The evidence which leads this Board to find that an emergency exists is that on May 12, San Mateo Transit District is taking over bus commute routes previously operated by a private carrier with stops in the downtown area. The Police Code must be amended in order to legalize such service and any suspension of service will cause an increase in commute traffic which will add to an already congested traffic area. Such increased congestion imposes severe hardship upon the residents of San Francisco and impedes the movement of emergency vehicles.

(a) Recipients shall be classified as either employable or unemployable. Recipients are presumed to be employable unless they are physically or mentally disabled. In addition, there shall be a rebuttable presumption that recipients are employable if denied SSI/SSP as a result of a SSI/SSP administrative hearing decision or if the recipient has repeatedly failed to pursue her or his SSI/SSP application. This presumption may be rebutted by satisfactory evidence being presented to the General Manager pursuant to Department regulations that the recipient is disabled for a period less than 12 months or, in the Department's determination, the recipient is unable to seek or obtain employment. (b) Failure to satisfy the requirements specified in Sections 20.58.2(b)(4) or 20.58.2(c)(3) or 20.58.2(c)(4) may result in a decrease or partial forfeiture of aid in appropriate cases.

(c) Failure to satisfy the requirements specified in Section 20.58.2(b)(3) or recurring failure to satisfy requirements specified in Section 20.58.2(b)(4) may result in a discontinuance or further decrease of aid in appropriate cases.

Sec. 20.58.4 Termination of Employment.

An applicant who has terminated employment without good cause within 45 days of the submission of an application for aid may be denied aid. If an applicant is denied aid on this basis, the applicant may request a fair hearing and determination will be made whether or not the primary motivation for the applicant's termination of employment was to establish eligibility for General Assistance. In the event the primary motivation for terminating employment was to establish eligibility for General Assistance, aid shall be denied.

(c) Mail the decision to the applicant or recipient if an immediate decision cannot be rendered.

Sec. 20.60.9 Hearing: Finality: Effect of Nonappearance.

(a) The result of all hearings are considered final and there is no further right of administrative appeal.

(b) When neither the applicant/recipient nor authorized representative appears for the scheduled hearing, it is presumed that the applicant/recipient ceases to contest the decision. The withholding, decrease, partial or total forfeiture, denial, discontinuance, and/or recoupment of overpayments of aid will, therefore, be effected. The applicant or recipient may, for good cause shown, make a written request, or oral request as specified in the General Manager's Regulations, for a second hearing within

fifteen (15) days of the scheduled date for the first hearing. Such request must specify the good cause for non-attendance at the first hearing. This provision is satisfied by evidence of any of the following: (1) verified hospitalization; (2) verified illness; (3) incarceration; or (4) other good cause satisfactorily shown to the General Manager.

(b) The following criteria shall apply to the building features listed in the table in Subsection (a) above, and to the unit of feature therein upon which each bonus is based.

1. Rapid Transit Access. The access shall be to a city or regional rapid transit system, leading directly to a station mezzanine of such system and conforming to the standards of the transit system, the Building Code and other applicable codes. The access shall be entered from a location within the lot lines of the subject lot, either within or outside a building, and shall be open during all business hours common in the area for use by the general public, marked for their use, and easily reached from a street or alley with a minimum sidewalk width of seven feet.

2. Rapid Transit Proximity. This bonus shall be available for any lot within 750 feet walking distance from a designated station mezzanine of a city or regional rapid system, and shall increase in proportion to the closeness of the lot to such mezzanine.

The walking distance shall be measured along streets and alleys with a minimum sidewalk width of five feet, or along passageways conforming to the standards of features 1 above and 6 below. For this purpose, walking distance shall be taken as the shortest distance from any point along the station mezzanine, to any point along a lot line of the subject property from which there is general access to the subject building.

3. Parking Access. The access shall be from the subject building directly to an automobile parking structure located elsewhere than in the areas of concentrated development of the C-3-O and C-3-R districts. Such parking structure may be either part of or separate from the subject building, but if the parking structure is separate it shall be either in the same ownership as the subject building or part of a Planned Unit Development approved under Article 3 of this Code to include both the parking structure and the subject building. The access shall be open during all business hours for use by occupants of or visitors to the subject building and marked for their use, and shall provide a passage with a minimum width of five feet, separated from streets and alleys. A passageway that is proposed to bridge a street or alley or to occupy any other public area shall be reviewed by the City Planning Commission subject to the criteria for Master Plan review under the City Charter and any other criteria that may be applicable. No parking space to which access is credited under this provision shall consist of a space actually required by this Code for any building or use.

4. Multiple Building Entrances. This bonus shall be available where there is more than one major entrance to the subject building, open Generally to occupants of the building for both entrance and exit and readily identifiable to them. All such major entrances shall be accessible from streets or alleys with a minimum sidewalk width of five feet, and shall be located at least 50 feet apart along such streets or alleys. Where a building face at ground level is located more than 20 feet inside the lot line along such a street or alley and contains at least one major doorway, each point at 50-foot intervals along such lot line shall be considered a separate major entrance to the building.

5. Sidewalk Widening. The sidewalk widening shall be along a through street or through alley, shall consist of an arcade, cantilever, building setback or plaza, open at all times to the general public, and shall run the full length of the lot along such street or alley except for necessary interruptions by features required for safety by other provisions of law, ordinance or the Municipal Code. The widened area shall be directly accessible from the public sidewalk at both ends and along at least two-thirds of its length, and if not fully open to such sidewalk shall have a minimum clear width of seven feet. The widened area shall have a minimum height of 10 feet, and although it may be occupied in part by columns, building services, landscaping and other features, only areas capable of being walked upon shall be credited in computation of the bonus. The maximum creditable depth of the widened area from the lot line at the street or alley shall be 15 feet in the C-3-R district and 30 feet in the other C-3 districts, or 50 feet from the curb, whichever is less.

Notwithstanding the requirements of this provision, concerning accessibility, continuity or horizontal dimensions, landscaped open area located as herein provided at ground level, consistent with the purposes of the bonus system and readily visible from a street or alley or permanent public open space, may be credited as sidewalk widening area within the scope of the 15 per cent maximum permitted for the sidewalk bonus in Table 2; provided that the bonus awarded shall be three square feet of floor area for each creditable square foot of such open space.

6. Shortening Walking Distance. The shortening of walking distance shall be computed by comparing walking distances along streets and alleys having a minimum sidewalk width of five feet with distances along walkways through the subject lot that are open during all business hours common in the area for use by the general public. Such a walkway may be either within or outside a building, shall be readily identifiable from the public sidewalk, and shall have a minimum width of 10 feet plus two feet for each side which has shops, lobbies, elevator entrances or similar features along it. Where a walkway passes through two or more lots, the bonus shall be prorated in proportion to the length of walkway on each lot.

7. Plaza. The plaza shall be directly and conveniently accessible to the general public during all business hours common in the area, from either a street or alley with a minimum sidewalk width of five feet, a feature conforming to the standards of 5 or 6 above, or a permanent public open space. The creditable plaza area shall be located at least 20 feet inside the lot lines separating the lot from the streets and alleys, shall have a minimum entrance width of 10 feet, and shall be at least 30 feet in its horizontal dimensions. For the purpose of measuring such minimum

horizontal dimensions space occupied by a feature conforming to the standards of 5 above may be counted for up to one-third of any dimension; however, no area credited under 5 above shall also be credited as plaza area. Up to two-thirds of the surface of the creditable plaza area may be occupied by planting, sculpture, pools and similar features, and the balance shall be suitable for walking, sitting and similar pursuits. Any building servicing requiring the presence of vehicles or goods in the plaza area shall be confined to times other than the business hours common in the area. Encroachments permitted by Section 136 of this Code for usable open space shall be permitted for the creditable plaza area.

Notwithstanding the requirements of this provision concerning accessibility or horizonal dimensions, landscaped open area located as herein provided at ground level, consistent with the purposes of the bonus system and readily visible from a street or alley or permanent public open space, may be credited as plaza area within the scope of the 15 per cent maximum permitted for the plaza bonus in Table 2; provided, that the bonus awarded shall be three square feet of floor area for each creditable square foot of such open area.

8. Side Setback. The side building setback shall extend upward from a height of not more than 40 feet measured at the front of the setback, and shall also extend for the entire depth of the lot. The side setback shall be located either along a lot line which intersects a street or alley and does not itself separate the lot from a street or alley, or in an equivalent position between two buildings or building portions on the same lot exceeding 40 feet in height. The setback area shall be unobstructed to the sky and shall have a minimum width of 20 feet. Setback areas of irregular

width may be credited, provided the minimum width of 20 feet is maintained and no part of the setback area to be credited is separated by a building from the street or alley which the setback intersects. The maximum creditable width of the setback area shall be 50 feet.

9. Low Coverage At Upper Floors. Each open area credited under this bonus shall extend upward unobstructed from a height of not more than 80 feet measured at the front of such open area, and shall also extend for the entire width or depth of the lot. The bonus shall be based upon reduction of both the over-all width and the over-all depth of the building by a minimum of 20 per cent of the respective lot dimensions, with additional bonus awarded as both such dimensions of the building are further reduced. Where the building is not located parallel to any of the lot lines, the over-all dimensions of the building shall be measured as appropriate to the specific siting of the building in relation to the lot and to streets and alleys.

10. Observation Deck. The observation deck or similar public space shall be located at or above the 20th story of the building and shall be of sufficient size to accommodate at least 50 persons at one time. Such space shall be advertised at ground level, and shall be open during the day and evening to the general public without the necessity of their doing business in the building other than paying an admission fee for the sole purpose of gaining access to the observation area.

(c) In application of the bonuses provided for in this section, the Zoning Administrator shall follow such procedures, including placing of restrictions on the land records and other actions, as the Zoning Administrator may deem appropriate to assure the provision and retention of such building features as are credited

in order to meet the requirements of this Code.

(d) In the C-3-O district, notwithstanding the development bonuses afforded by Subsections (a), (b) and (c) of this section, and in lieu of any and all such development bonuses, for a lot or portion thereof which is defined by this Code as a corner lot, a floor area premium may be added by increasing the area of the lot or portion, for purposes of determining the maximum floor area ratio for the building or development on such lot, by 20 per cent.

(e) The provisions of Subsections (a), (b), (c) and (d) above shall be modified by interim controls on development bonuses as described below:

1. Purposes. These interim controls are adopted in order to prevent conditions in the downtown area from substantially changing during the period in which comprehensive revisions to the downtown zoning provisions are prepared and considered for adoption, while continuing to provide for hotel and residential development which supplies needed new dwelling units and serves to relieve the market pressures which have fostered the conversion of existing dwelling units to hotel use. These interim controls are found and declared to be necessary to fulfill the purposes of this Code as stated in Section 101 hereof.

2. Standards. During the period of time and applicable to those developments described herein, development bonuses enumerated in this Section may only be permitted through conditional use authorization pursuant to Section 303 of this Code and only for hotel and residential uses.

3. Duration. The controls of this Subsection (e) shall be in effect until_____[this date to be one year from the effective date of this ordinance], after which period they shall be of no further force or effect.

4. Where applicable. These interim controls shall apply only to any development for which neither a building permit application nor a preliminary draft environmental impact report has been first filed with the City on or before January 3, 1980, provided that these interim controls shall not apply to any development which meets the following conditions:

(A) The Developer informed Department of City Planning in writing by March 1, 1979 of intent to develop by filing schematic or preliminary plans and requesting Department of City Planning review, and continued thereafter with diligent efforts leading to the future filing for a building permit, including but not necessarily limited to:

(1) Continued discussion between developer, architects and Department of City Planning of development guidelines and/or critique of proposed building designs, and

(2) Contracting for preparation of an environmental impact report, with subsequent discussion between the consultant and the Department of City Planning concerning the project prior to May 1, 1979, and

(3) Professional preparation of technical data for environmental evaluation, and

(4) Professional preparation of plans necessary for obtaining a building permit; and

(B) The developer filed applications for demolition permits for existing buildings on the site to be developed by August 1, 1979.

The controls shall not apply to any Redevelopment Project Area for which a Redevelopment Plan has heretofore been adopted.

5. Relationship to other standards. The provisions of this Subsection (e) shall apply in addition to all other provisions of this Code. In cases of inconsistency among provisions, the most restrictive provision shall prevail.

Section 2. The Board of Supervisors hereby certifies that it has reviewed and considered the information contained in the negative declaration adopted and issued for this project under File No. EE80.19 on January 31, 1980.

AMENDING PART II, CHAPTER II OF THE SAN FRANCISCO MUNICIPAL CODE (CITY PLANNING CODE) BY ADDING SECTIONS 242 AND 242.1 TO CREATE THE UNION STREET SPECIAL USE DISTRICT, A NEIGHBORHOOD COMMERCIAL SPECIAL USE DISTRICT, COVERING PROPERTIES ON THAT PORTION OF UNION STREET BETWEEN STEINER STREET AND VAN NESS AVENUE AND ON THAT PORTION OF FILLMORE STREET BETWEEN UNION STREET AND MOULTON STREET; AMENDING SECTION 202 TO ADD SPECIAL USES; AMENDING SECTION 235 TO CHANGE CROSS-REFERENCES TO OTHER SECTIONS; ADDING SECTION 312 TO CREATE A SPECIAL USE PROCEDURE; AND CERTIFYING REVIEW OF THE NEGATIVE DECLARATION OF THE DEPARTMENT OF CITY PLANNING.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Article 2 of Part II, Chapter II of the San Francisco Municipal Code (City Planning Code) is hereby amended by adding Sections 242 and 242.1 and amending Sections 202 and 235 to read as follows:

SECTION 242. NEIGHBORHOOD COMMERCIAL SPECIAL USE DISTRICTS.

(a) Purposes. In order to provide, maintain and strengthen viable neighborhood commercial districts readily accessible to city residents, promote the multiple use of neighborhood commercial areas with priority given to neighborhood-serving retail and service activity, promote neighborhood commercial revitalization, protect environmental quality in neighborhood commercial areas, prevent the establishment of major new commercial development except in conjunction with adequately supportive residential development and transportation capacity, encourage community-based economic development, and control the rapid expansion of certain kinds of uses which if uncontrolled may adversely affect the character of certain neighborhood commercial districts, there shall be Neighborhood Commercial Special Use Districts, as designated on Sectional Maps of the Zoning Map. The original copies of said Sectional Maps with these Special Use Districts indicated thereon is on file with the Clerk of the Board of Supervisors under File No. 273-80. The provisions set forth in this Section 242 and Section 242.1 including Table 5A, shall apply respectively, within these Special Use Districts, and shall be applicable to all property, whether public or private, therein.

(b) Controls. (1) General. These controls, set forth in Table 5A, on floor

area, frontage, drive-up uses, off-street parking, and outdoor activity are intended to maintain and protect the existing neighborhood-oriented scale of development. (2) Special Uses. These controls, set forth in Table 5A, on the type and number of certain specific commercial uses permitted in each neighborhood commercial special use district are intended to prevent excessive noise, traffic and parking congestion and conditions disruptive of the neighborhood. Special use threshold numbers, or density levels, are established for bars, fast food outlets, financial offices, places of entertainment, restaurants, and stores selling liquor for off-premises consumption. If the existing number of such establishments equals or exceeds the special use threshold limits, applications for additional such uses require approval as special uses. In addition, cabarets, dance halls, hotels, and accessory off-street parking for non-residential uses, require approval as special uses by the City Planning Commission. In reviewing such applications for special use authorization, the Commission shall consider criteria set forth in Section 312 of this Code.

(c) Definitions. For the purposes of this Section 242, and Sections 242.1, 312 and other sections of this Code relating to neighborhood commercial special use districts, the following definitions shall apply:

1. Bar. A drinking establishment with one of the following Alcoholic Beverage Control licenses:

(a) #61 - On-sale beer (public premises, no person under 21 years)

(b) #42 - On-sale beer and wine (public premises, no person under 21 years)

(c) #48 - On-sale general (public premises, no person under 21 years).

2. Cabaret. A cabaret as defined in Section 1070 of the Police Code.

3. Dance hall. A dance hall as defined in Section 1022 of the Police Code.

This definition is applicable to chain restaurants and to independent businesses such as carry-out sandwich shops and ice cream stores which do not have seating capacity for consumption of food on the premises. A fast food establishment which also provides space for consumption of food on the premises shall be included in the restaurant category. 6. Financial office. Any bank, savings institution, loan company, savings and loan institution, thrift plan, credit union or any establishment for the custody, loan, exchange or issue of money, for the extension of credit or for facilitating the transfer of funds; or any financial office as further defined in the United States Code or the California Financial Code.

Section 242.1. Union Street Special Use District. In order to provide for an established shopping area with a unique mixture of local, citywide and regional sales and services and a special identity, there shall be a Union Street Special Use District, a Neighborhood Commercial Special Use District, as designated on Sectional Map 2SU of the Zoning Map. The original of said map is on file with the Clerk of the Board of Supervisors under File No. 273-80.

(a) Specific findings and purposes. This ordinance is intended to further the general purposes of zoning legislation as set forth in Section 101 of this Code, to promote the health, safety and general welfare of the public through:

1. Preservation of the existing scale and mix of commercial uses along Union Street in order to maintain the livability of the surrounding residential area as well as the economic viability of the street.

2. Establishment of performance standards for certain types of commercial uses which are concentrated along the street in a manner potentially harmful to residential livability and the maintenance of small-scale neighborhood-serving businesses

3. Establishment of certain businesses as special uses in order to allow for the orderly development of the street and to prevent any damage to the unique commercial character of the street with its special mix of food and beverage service, entertainment, specialty shops and professional services.

4. Establishment of density thresholds for certain commercial uses beyond which special review is required to assure maintenance of a balance of sales and services to the neighborhood, citywide and regional customers and users of the street and prevention of excessive noise, traffic and parking congestion and other conditions disruptive of a neighborhood.

5. Prohibition of "drive-up" type uses, and establishment of review procedures for off-street parking facilities, which uses would cause interference with an already congested traffic flow and would be out of character with the special urban character of this unique shopping area.

These standards shall govern the adoption of guidelines by the City Planning Commission to be applied by the Zoning Administrator, the City Planning Commission, and the Board of Supervisors, on appeal, in reviewing applications for special uses.

(b) Controls. The following provisions shall apply within such special use district:

1. Floor area, frontage, off-street parking, and outdoor activity shall be permitted as principal uses only within the standards set forth in Table 5A. Applications that exceed the standards therein set forth shall be permitted as special uses after review under applicable criteria set forth in this Code and Guidelines adopted by the City Planning Commission for such uses.

2. Bars, fast food outlets, financial offices, places of entertainment, restaurants and stores selling liquor for off-premises consumption may be permitted within the standards set forth in Table 5A as permitted uses where the threshold number has not been exceeded, or as special uses otherwise.

3. No permitted use shall include an establishment of the "drive-in" type, serving customers waiting in parked motor vehicles.

4. Any application for special use authorization for establishment, alteration

or enlargement of a cabaret, dance hall, hotel, or for off-street parking accessory to non-residential uses, shall be reviewed, and approved or disapproved by the City Planning Commission which shall consider all relevant criteria set forth in Section 312 of this Code before taking action.

SECTION 202. USES PERMITTED BY THIS CODE.

(a) The use limitations of this Code shall be as set forth in this Article 2 for the use districts of the city, as established by Section 201 of this Code and as shown on the Zoning Map referred to in Section 105 of this Code, subject to the provisions of Section 105. The uses permitted under this Code shall consist of the following:

1. Principal uses, permitted as of right in each established district where listed for that class of districts in this Article 2, as regulated herein and elsewhere in this Code.

2. Conditional uses, permitted in each established district when authorized by the City Planning Commission under Section 303 of this Code, where listed for that class of districts in this Article 2 and as regulated herein and elsewhere in this Code.

3. Accessory uses for such permitted principal and conditional uses, as defined and regulated in Sections 204 through 204.5 of this Code. Any use not qualified under such sections as an accessory use shall be classified as a principal or conditional use.

4. Special uses, permitted in Neighborhood Commercial Special Use Districts, when authorized by the Zoning Administrator or the City Planning Commission, where listed for that class of districts in this Article 2 and as regulated herein and elsewhere in this Code.

(b) Permitted uses shall include in each established district such uses not specifically listed in this Article 2 as are from time to time determined by the Zoning Administrator to be permitted uses in accordance with Section 307(a) of this Code.

(c) No use shall be permitted in any R district, C district or M-1 district

which by reason of its nature or manner of operation creates conditions that are hazardous, noxious or offensive through emission of odor, fumes, smoke, cinders, dust, gas, vibration, glare, refuse, water-carried waste, or excessive noise.

(d) Except as specifically provided herein to the contrary, the provisions of this Article 2 shall apply to all uses, properties and developments, both public and private, including those of the City and County of San Francisco.

SECTION 235. SPECIAL USE DISTRICTS. In addition to the use districts that are established by Section 201 of this Code, there shall also be in the city such special use districts as are established in this section and Sections 236-242.1, in order to carry out further the purposes of this Code. The designations, locations and boundaries of these special use districts shall be as provided in Sections 236-242.1 and as shown on the Zoning Map referred to in Section 105 of this Code, subject to the provisions of Section 105. The original of the numbered sectional maps of the Zoning Map for Special Use Districts referred to in Sections 236-242.1 is on file with the Clerk of the Board of Supervisors under Files No. 191-67-2 and No. 273-80. In any special use district the provisions of the applicable use district established by Section 201 shall prevail, except as specifically provided in Sections 236-242.1.

Section 2. Article 3 of Part II, Chapter II of the San Francisco Municipal Code (City Planning Code) is hereby amended by adding Section 312 thereto, to read as follows:

SECTION 312. SPECIAL USES.

(a) General. The Zoning Administrator and the City Planning Commission shall make determinations regarding applications for authorization of special uses in the specific situations in which such authorization is provided for elsewhere in this Code.

The procedures for special uses shall be as specified in this section.

(b) Purpose. The special use authorization procedure is intended to facilitate the orderly processing of applications for alteration and enlargement of existing uses and for establishment of uses in Neighborhood Commercial Special Use Districts through a procedure which allows for efficient and thorough review of applications using criteria and requirements as set forth in this Code and guidelines as adopted from time to time by the City Planning Commission, so as to insure fairness to each applicant and adequate and reasonable regulation of commercial development. Except as provided in subdivision (d), no special use authorization may be approved pursuant to this Chapter which is not consistent with the policies and objectives of the Comprehensive Plan of San Francisco, the purposes of this Code, the general purposes of Neighborhood Commercial Special Use Districts (Section 242(a)), the purposes of special use controls (Section 242(b)), and the purposes of the particular special use district. In considering such authorizations the Zoning Administrator and the Planning Commission shall also consider the needs of the owners of property, operators of businesses, residents of surrounding areas, users of the areas and the community in general.

(c) Initiation. A special use determination may be initiated by application of the owner, or authorized agent for the owner, of the property for which the special use is sought.

(d) Determination by the Zoning Administrator. After review the Zoning Administrator shall either approve the application and authorize a special use if the facts presented are such as to establish:

1. That the proposed use meets the standards of applicable sections of this Code;

2. That the proposed use meets the standards of applicable guidelines adopted by the City Planning Commission for review of such applications; and

3. That the proposed use complies with the following requirements:

(A) Financial office.

(1) No other financial office is within 300 feet.

(2) Proposed establishment does not exceed 2,500 square feet of gross floor area,

(5) No off-street parking is provided on the site;

or he or she shall refer the matter to the City Planning Commission for

hearing as set forth in subsection (e) following.

(e) Review and determination by the City Planning Commission. In those cases in which the Zoning Administrator determines that the requirements of subsection (d) above are not met, or that the public interest would be best served by a review of the consistency of the proposed special uses with the purposes to be served and the factors required to be considered in approval by the City Planning Commission, or the possible imposition of conditions which will make approval consistent with the requirements of subsection (d) he or she may refer the matter to the City Planning Commission for review and hearing. Following such hearing the Commission may approve or disapprove such application for special use authorization, or may approve with conditions, following the procedures set forth in Section 303 for conditional uses. In making the determinations required by Sections 303(c) and 303(d) to be made if authorization is to be approved, the Commission shall consider the following factors, as applicable:

1. Dance halls.

(A) Whether proposed establishment is within 300 feet of another dance hall,

(B) Whether proposed establishment exceeds 1,000 square feet of gross floor area,

(C) Whether proposed establishment is within 100 feet of property with residential occupancy, and

(D) Whether noise levels created by the use outside the premises are excessive or disruptive to the neighborhood.

2. Cabarets.

(A) Whether the proposed establishment is within 300 feet of another cabaret,

(B) Whether the proposed establishment exceeds 1,000

square feet of gross floor area,

(f) Notice of Determination. The determination of the Zoning Administrator to approve an application for special use authorization shall be posted on the subject property, advertised in a newspaper of general circulation, and mailed to groups and individuals requesting such notice. The Zoning Administrator may provide such additional notice as he or she deems appropriate to carry out the provisions of this section.

(g) Appeal of action by Zoning Administrator to Commission. The action of the Zoning Administrator in approving an application for special use authorization may be appealed to the City Planning Commission within ten (10) calendar days of the date of publication of the determination by any of the following:

1. The applicant.

2. Ten or more property owners or tenants of the residential or commercial property within 300 feet of the exterior boundaries of the subject property subscribing to a petition of appeal.

In hearing such appeals on the granting of a special use authorization by the Zoning Administrator, the Commission shall be guided by the same standards, criteria and procedures set forth in Section 312(e).

(h) Appeal of action by City Planning Commission to Board of Supervisors. The action of the City Planning Commission in approving or disapproving an application for special use authorization, or approving an application subject to conditions, may be appealed to the Board of Supervisors. The procedures for appeals of actions by the Commission on applications for conditional uses, as set forth in Section 308.2 of this Code, shall be followed in such cases. In hearing such appeals the Board of Supervisors shall make the determinations and consider the factors required to be considered by the Planning Commission pursuant to Section 312(e).
